

The floor plan illustrates a 1000m² industrial facility, divided into several functional zones:

- Top Section (CNC and Precision Machining):** Includes CNC machines (CNC 136x220, CNC 300x260), precision grinding (GRINDER 190.7x90), and various storage units (REGAL 120x60, DYGESTORIUM 150x80).
- Left Section (ZARODKI - Seedlings):** Features two dedicated areas for seedlings, each with a table (STÓŁ 120x60) and a storage unit (REGAL 120x60).
- Center Section (Mechanical and Demontage):** Contains mechanical workstations (POLERKA 173x165, POLERKA 150x150), a demontage area (DEMONTAŻ) with a table (STÓŁ 120x60), and a technical area (TECHNICZNE) with a table (STÓŁ 120x60).
- Right Section (Orientation and Cutting):** Includes an orientation and cutting area (ORIENTACJA \ WYCINANIE) with a table (STÓŁ 120x60) and a storage unit (REGAL 120x60).
- Bottom Section (CMP - Chemical Mechanical Polishing):** Features four CMP workstations (CMP 75x75) and a storage unit (REGAL 120x60).

The plan also shows various utility areas, including restrooms, a kitchen, and a storage area for raw materials (PROZNA GN 400V).
