

The diagram illustrates the relationship between a cylinder, a cross-section, and a cone. On the left is a cylinder. In the center is a cross-section of the cylinder, which is a rectangle with a diagonal line from the top-left corner to the bottom-right corner, labeled with the letter 'Z'. To the right of the cross-section is a cone. The cone's base is the same as the cylinder's base, and its height is the same as the cylinder's height. The cone is shaded to show its three-dimensional form.

Rozbudowa drogi wojewódzkiej nr 985 Nagnajów - Baranów Sandomierski - Mielec
- Dębica polegająca na budowie ścieżki pieszo-rowerowej w miejscowości Brzeźnica

Plan ewidencyjny -Przebudowa sieci elektroenergetycznych
