Equivalence of the disinfectant formulas «GLOBACID AF» «GLOBACID AF med»

We herewith confirm that the formulas of GLOBACID AF and GLOBACID AF med are the same, all active ingredient inclusion rates are the same.

Based on the aforementioned data, we can confirm that disinfectant formulations “GLOBACID AF” and “GLOBACID AF med” can be considered as equivalent and therefore all laboratory test done with one above mentioned formula/tradename are valid for all.

VITASEPT WIPES and VITASEPT WIPES med are wipes that are moistened with GLOBACID AF or GLOBACID AF med.

All products mentioned above consist of mix of alcohols (isopropanol and ethanol) hence they don't leave any residue on the surface and there is no need to wash surfaces, coming contact with food, with water after application.
